

Plan Change 4 to the Land and Water Regional Plan

Hearing Commissioners questions arising from the s42A Reply Report

Rule 5.68

Can the officers please provide a map or aerial photograph illustrating the location of lakes within the region that are not located outside the Hill and High Country Area, are not located within a Lake Zone (as shown on the Planning Maps) and are not classified as a High Naturalness Waterbody. Namely the lakes within which cattle will be allowed to stand under Rule 5.68(3)(c)(1) as recommended to be amended in the Reply.

Rules 5.167 and 5.168

Is there a reason for the different wording in Rule 5.167(4) "... a salmon spawning site ..." and Rule 5.168(3) "... significant spawning reach for a salmon site..." ?
