 Message  20160912\_095141.jpg

Hi Kiri,

Please see the below email chain regarding the cows in the Hurunui River.

Thanks,  
Kate

Hi Conan,

Thank you for sending the photo through and providing further details.

I have passed this information onto our Pollution Team who are looking into it and have advised they will be in touch with you.

Kind Regards,  
Kate

That's the best one,

I understand the cows belong to Dave Gunn from Lake Taylor Station and are being grazed on Doc land as part of a grazing concession. Does Ecan allow cows to graze this close to rivers?

Thanks,

Conan

Hi Conan,

Is it just the one picture of the cows by the river attached that you have sent or are there more to come?

Thanks,

Kate

Hi,

I'll send them via wettransfer. They're probably too big. The area the 15 cows were seen in was the confluence of the Hurunui and Jollie Brook Stream on the opposite bank to Lake Sumner Rd.

Conan

Hi Conan,

I cannot see the photos attached, are you able to check if they were sent?

Kind Regards,

Kate

Hi Kate,

Further to my phone call here are some photos. The first one is looking south from the camping area towards the swing bridge.

Then the cows standing north of the camping spot.

Then a wider shot of the cows showing the location.

Then the camping area itself.

This is part of the Lake Sumner Forest Park and a v popular spot for kayaking schools and trout fishers. I understand these cows belong to Sian Elias and Hugh Fletcher. I also saw pugging around the banks of the river and cow dung. Could you please let me know what action you'll take from here and the time frame.

Photos were taken by me on Sunday Sept 4.

Thanks,

Conan Young
