MEMORANDUM

FROM: Olivia Cook

TO: Andrew Parrish

SUBJECT: Changes to be made to Plan change 3 (South Coastal Canterbury) to the Canterbury Land and Water Regional Plan pursuant to Clauses 16 and Clause 20A of Schedule 1 to the Resource Management Act 1991 (RMA)

SCHEDULE OF CHANGES

Independent hearing commissioners were appointed to hear submissions and make recommendations on proposed Plan Change 3 (South Coastal Canterbury) to the Land and Water Regional Plan. In response to those submissions the hearing commissioners prepared a Report and Recommendation for the Council which recommended insertions, deletions and amendments to the notified plan change.

The Report and Recommendations of the independent hearing commissioners was adopted and approved as the Council's decision on Plan Change 3 at a Council meeting on 22 September 2016.

Plan Change 3 is now at a stage in the planning process where it may be made operative by way of Council resolution. It is necessary to make a number of minor corrections and renumber provisions in Plan Change 3, prior to making the plan change operative. These amendments correct minor typographical and grammatical errors and ensure the provisions are numbered in a logical and sequential order.

The authority to correct minor errors or make alterations of minor effect to a proposed plan change, without using the process described in Schedule 1 to the Resource Management Act (1991), is provided in Clause 16(2) of Schedule 1.

Clause 16(2) of Schedule 1 of the states:

“A local authority may make an amendment, without using the process in this schedule, to its proposed policy statement or plan to alter any information, where such an alteration is of minor effect, or may correct any minor errors”

Tables 1, 2,3 and 4 show the recommended amendments to the Council's decisions on Plan Change 3. Provisions identified in Column 1 of the tables below refer to provisions as numbered in the Councils' decision on Plan Change 3.

Location	Type of correction / alteration	Correction	Reason
Schedule 24b(a)	Renumbering	Amend the numbering in Schedule 24b(a) as follows: (i) (ii) Where a material change in the land use associated with the farming activity occurs... (ii) (iii) Where a material change in the land use associated with the farming activity does not occur... (iii) (iv) An annual review of the input... (iv) (v) Fertiliser is applied in accordance with... (v) (vi) Records of soil tests, nutrient budgets and fertiliser...	The Council's decision on Plan Change 3 omitted some notified provisions and inserted new provisions. Renumbering is necessary to ensure provisions are ordered sequentially.
Schedule 29, Table s29.1,	Minor correction	Amend the date in column E as follows: 01 May 2015 <u>January 2025</u>	The Council's decision on Plan Change 3 included an incorrect date in Column E. The correction aligns the date with that referred to in Policy 15A.4.4.
Schedule 29, Table s29.2	Minor correction	Amend Table s29.2 as follows: Title: "Referenced OVERSEER input files used <u>required</u> to calculate... ... Third column, second row: D <u>VL</u> M <u>L</u> L <u>M</u> VL <u>D</u> Third column, third row 44 <u>14</u>	Table s29.2 describes the OVERSEER input files relied on to calculate the updated flexibility caps for the South Coastal Canterbury Area. The soil classes in the table have been mislabelled, and a correction is required to associate the correct soil type with the correct nitrogen loss rate. A correction to the nitrogen loss rate for the Waihao Wainono Hills Sub-area (Hill A) is also required to accurately record the nitrogen loss rate under OVERSEER v6.2.1 ...

As a consequence of incorporating Plan Change 3 into the Land and Water Regional Plan, some minor corrections to renumber provisions in the Canterbury Land and Water Regional Plan are required.

The authority to correct minor errors in an operative plan, without using the process described in Schedule 1 to the Resource Management Act 1991, is provided in Clause 20A of Schedule 1 to the RMA.

Clause 20A of Schedule 1 states:

“A local authority may amend, without using the process in this schedule, an operative policy statement or plan to correct any minor errors.”

The table below identifies minor corrections that are to be made to the Land and Water Regional Plan. Recommended insertions are shown with underline.

Table 4 – Recommended amendments to Section 15 of the Canterbury Land and Water Regional Plan

Location	Type of correction / alteration	Correction	Reason
Provision 15.6.2	Typographical	<p>Amend the wording of provision 15.6.2 as follows:</p> <p>“...when reading relevant policies and rules in Sections 4, 5 and <u>15A</u>.</p>	<p>Policies and rules that apply to South Coastal Canterbury (SCC) are now contained within Section 15A of the Plan. An amendment is recommended to clarify the location of these provisions.</p>

It is considered appropriate to use Clause 16(2) to Schedule 1 to the RMA to amend Plan Change 3 to the Canterbury Land and Water Regional Plan for the following reasons:

- The recommended amendments to Plan Change 3 to the Canterbury Land and Water Regional Plan correct minor errors or correct typographical errors, or renumber provisions. These changes do not materially alter the substance, intent or application of these provisions;
- The recommended amendments are of neutral effect and do not prejudice the rights of any person that made a submission on these provisions.

Recommendation

The above changes as recommended by Environment Canterbury staff, are approved as minor corrections under Clause 16(2), and a copy of these changes is displayed on the Environment Canterbury Website.
