The work of Environment Canterbury is reported on under six portfolios as outlined in the draft Long-Term Plan document. Our website outlines many of the areas we work in, in more detail. On this form you are asked for feedback on the activity planned under each portfolio as well as on the entire plan and specifically on the Public Transport options. In the comments section under each portfolio, please tell us what you support/don't support about the planned activity, and if there is anything you would like to see more or less of.

Please view our short Consultation Document and full Long-Term Plan supplementary document on www.ecan.govt.nz.

Comments:

Not happy with the proposed cuts in bus routes 107 & 108 - Paparui / Harewood area. It will leave us with no buses at all to get to Northlands to catch Blue Bus into city - You want to keep cars out of the city - It will leave people with no choice but to drive

2. Public Transport Options

Public Transport is one of the programmes in the Transport and Urban Development portfolio. For the first year of the Long-Term Plan 2018-28 we are proposing changes to the Public Transport programme as outlined in the Consultation Document. (on page 14)

To make comment on the the whole Transport and Urban Development portfolio, please go to Q7.

Options

Please review the options in the Consultation Document and indicate which option you support: (please select one answer)

Option 1 – A combination of routes, fares and (targeted) rates changes: small fare and rates increases, reduced Total Mobility subsidy and six routes discontinued. ☐

Option 2 – As Option 1 but larger rates increase, no fare increase: larger (targeted) rates increase, no fare increase, reduced Total Mobility subsidy and six routes discontinued. ☐

Option 3 – As Option 1 but larger fare increase, smaller (targeted) rates increase: minimal rates increase, larger fare increase, reduced Total Mobility subsidy and six routes discontinued. ☐

Option 4 – none of the above. (Please provide comment/ideas for an alternative solution) ☐

Comments:

I use bus service #107 Styx mill/Northland on a regular basis to get from home to work in the city centre - I have been a rate payer for nearly 30 years & think it is appalling that you plan to cut out this bus route altogether. I need this bus to take me to Northland to then catch the Blue Bus into the city. you are wanting people to leave cars at home. If you cut this service I will then have no option but to drive my vehicle into the city - where there is limited all day parking and you do not want everyone taking their vehicles
