Hello,
I would like to comment on your LTP for public transport.
Public transport is my only means of transport for work, shopping and social visits.
I mainly use the Blue Line, Orbiter, 125 (airport) and 100 most regularly.
I think option one is the best plan though I do think you should keep
either the 107 Styx Mill or the 108 Casebrook for people that live in
those areas. As my Blue line bus shares the same stop with 107 and 108
at Northlands, I have noticed that there are a few elderly that use these
buses and also school children. These routes may be their only transport.
Also the 108 is the only bus that stops near Styx Mill reserve and that
is something to consider too for people wanting to go there.
Maybe create one route that would cover 107 and 108???

Cheers
Sue
