Biodiversity and Biosecurity Support/Oppose	
See page 8 of the Consultation Document.	
Please select one of the following:	I generally agree with the activity proposed for Biodiversity and Biosecurity.

Biodiversity and Biosecurity Comments

Please provide any comments.

It is important not to make the current loss of biodiversity and biosecurity worse than it is. This means recognition that there are too many cows in Canterbury, and that therefore the proposed new irrigation schemes should be abandoned. I refer to the plans to build dams at Emu Plains, Hurunui Water Project, Central Plains Water stage 2, OTOP and Hunter Downs.
