Public Transport Options

Public Transport is one of the programmes in the Transport and Urban Development portfolio. For the first year of the Long-Term Plan 2018-28 we are proposing changes to the Public Transport programme as outlined in the **Consultation Document**. (on page 14)

To make comment on the Public Transport proposed changes please complete the selection panel below.

To make comment on the the whole Transport and Urban Development portfolio, please use the tab on the left.

Please review the options in the Consultation Document and indicate which option you support:

Option 2 – As Option 1 but larger rates increase, no fare increase: larger (targeted) rates increase, no fare increase, reduced Total Mobility subsidy and six routes discontinued.

Public Transport Comments

Please provide any comments.

The bus service must be an affordable alternative to motoring in order to reduce congestion on our roads. It must be to international western standards to encourage increasing ridership. Should be paid through general rates as all in the region will benefit from reduced congestion and air pollution associated with private motoring. As it is now, unfortunately taking the bus is often more expensive than motoring. It should be the other way around.

Transport and Urban Development Support/Oppose

See page 13 of the Consultation Document.

Please select one of the following: I generally disagree with the activity proposed for Transport and Urban Development.

Transport and Urban Development Comments

Please provide any comments

Much more emphasis should be put on light and passenger rail and decreased funding for motorway maintenance and expansion. We need to embrace the 21st century and stop with the old guard way of thinking.

Rates Support/Oppose

See page 16 of the Consultation Document.

Please select one of the following:

I agree with the proposed rates increase of 4.5% for 2018/19.

Rates Comments

Please provide any comments.

Per page 18 of the Consultation on the Long-Term Plan 2018-2028, a Christchurch home valued at \$570,000 would pay only \$395.76 in rates. That is ridiculously low. We need much higher rates to pay for increased services and a larger public transit and cycleway infrastructure layout.

Hi there,

Thank you for your online submission for the Long-Term Plan 2018-28 regarding Public Transport, Transport and Urban Development and Rates.

We will be including this feedback as anonymous feedback rather than an LTP submission as you did not include your full name. If you wish us to include your feedback as a formal LTP submission, we do need you to specify your first and last name and full address please.

When you reply with this please also let us know if you would like to meet with Councillors at a hearing to discuss your submission. Hearings are currently scheduled for **30 April** and **1 & 2 May 2018**. Alternatively you can log onto our website to make a formal submission which allows you to provide feedback on the options in the consultation document and show your support of other parts of our Long Term Plan.
