Public Transport Comments

Please provide any comments.

You can not remove both bus lines (107 and 108)without having an alternative, we look after international homestay University students which will be impossible to keep without the bus lines. Also there is new housing developments in the area that will not have access either.

Is it not possible to modify an existing line to cater for the area or to combine the 107 and 108 together with only the minibuses?

It just seems a bit strange to have a place like Christchurch have suburbs with no public transport options.

Thanks,
