Transport and Urban Development Support/Oppose

See page 13 of the Consultation Document.

Please select one of the following: I generally disagree with the activity proposed for Transport and Urban Development.

Transport and Urban Development Comments

Please provide any comments

I support a long term option , enabling social cohesion, specifically maintaining the route 535(Eastgate/Lyttelton/Rapaki) as this serves the most vulnerable in our community.

This route enables East Christchurch friends to visit Lyttelton elders- the social benefit reduces isolation for senior citizens. Financial viability is only 1 measure. Ecan must take into account the social value of connection and independence for our elders, no longer able to drive, limited mobility by aged related illness or have a commitment to public transport as an environmentally sustainable alternative.

I also do not support transferring more costs to the disabled in our community, this is a harsh and cruel decision

I urge Ecan to recognise the public good of these services and demonstrate care and respect for our elders,disabled and East Christchurch citizens
