See page 16 of the Consultation Document.

Please select one of the following: I disagree with the proposed rates increase of 4.5% for 2018/19.

Rates Comments

Please provide any comments.

I disagree with increasing the rates it is hard enough for people to pay them now cut back on the fancy plans Change the rating system you pay according to your income. Why should people like myself who have struggled gone without have to pay more than other people in other areas. I don't get anymore for my rates than they do, Stop wasting money on Pools . I pay into one myself use that model have people pay for the one in their own area.

A lot of people in Christchurch have been threw more than enough expense with losing their home and land due to the quakes.

Stop wasting money on deciding what to do with the red zone land the red zones have not had their land payments yet. This land should never be built on again . the rate payers do not need to fund people coming up with crazy ideas about to do with our land with we where forced off some of us are unable to move on. Have a heart.

Please give us a bus service to replace the 107 we could have the blue line that goes to Northwood then goes where the 107 bus goes now past willowbank and out on to the motorway from there that way for once we will have a good bus service that runs to the city and often and will go late at night . I have a disability would like to be able to catch a bus that goes often and late at night to the city. I would also soon like to be able to use my gold card. My daughter won't be able to take herself to university or if i want to go to the shops or out for the day how dare you take that right away from me. You are supposed to look after the environment.

I feel this bus service you have provided us with has been set up to fail as it goes nowhere and doesn't run often enough. or late

In this area we pay very high rates if you discontinue this service i shall be demanding that I no longer have to pay rates for the buses of Christchurch.and encouraging others to do so.
