Public Transport Options

Public Transport is one of the programmes in the Transport and Urban Development portfolio. For the first year of the Long-Term Plan 2018-28 we are proposing changes to the Public Transport programme as outlined in the **Consultation Document**.(on page 14)

To make comment on the Public Transport propped changes please complete the selection panel below.

To make comment on the the whole Transport and Urban Development portfolio, please use the tab on the left.

Please review the options in the Consultation Document and indicate which option you support:	Option 4 – none of the above. (Please provide comment/ideas for an alternative solution)

Public Transport Comments

Please provide any comments.

Westmorland NEEDS a bus service. There would be a lot more people using the bus system if the buses **actually ran to the city** and not having to change buses at Barrington. This is not conducive to getting people to use the bus for commuting to the city as it adds way too much time. The change at Barrington is a major disincentive to using the current bus service. **I would definitely be using the bus service if the bus did the circuit up Penruddock Rise and down Ravensdale Rise to the city** and I'm sure a lot more people would also use it if the service was user friendly. Also with the new subdivision at the top of the hill, the majority of people building and moving up there have children who will be wanting a bus service for school in years to come.

Please feel free to contact me if required.
