### Public Transport Options

Public Transport is one of the programmes in the Transport and Urban Development portfolio. For the first year of the Long-Term Plan 2018-28 we are proposing changes to the Public Transport programme as outlined in the **Consultation Document**.(on page 14)

To make comment on the Public Transport proposed changes please complete the selection panel below.

To make comment on the the whole Transport and Urban Development portfolio, please use the tab on the left.

<b>Please review the options in the Consultation Document and indicate which option you support:</b>	Option 4 – none of the above. (Please provide comment/ideas for an alternative solution)

### Public Transport Comments

Please provide any comments.

**I would like to know what you would do to relace the bus routes 108 and 107.**

**I would suggest to combine the 2 routes together if that is what it would take to keep the buses on and extend it to the city. It is the transfer that is a problem for a lot of us.**

**I can't use the bus as it is now because it takes too long to travel to my work. I would have to leave home before the buses start in the morning to get there on time so it doesnt happen for me. If the bus went to the city there would be more that would use it. I think the options 1.2.3. are short sighted as there is now a subdivision being built in Highsted that goes From Gardiners**

road to Highsted and then through to Cavedndish Roads. And from Claridges Road through to Styx Mill Roads.

I have been a rate payer in this house for 34 years and previously in the same area for 10 years. I think there should be a lot more thought in what you people are doing. It is a service and in my belief from the past it was not meant to make a profit if any because of that fact IT IS A SERVICE TO THE PEOPLE OF THE CITY. I have always paid my rates to benefit all in my city and my community.

Thank you for reading my submission.
