Transport and Urban Development Support/Oppose

See page 13 of the Consultation Document.

Please select one of the following: I generally disagree with the activity proposed for Transport and Urban Development.

Transport and Urban Development Comments

Please provide any comments

I am really disappointed that you are proposing to axe the 107 and 108 bus service. My children use this bus regularly to get into town to go to the skatepark. As they are not old enough to drive yet this is their only means of getting around.

Without this bus service our side of town will have no public transport! I have also seen a number of my elderly neighbours using this bus service too, How are they going to get around?

I urge you to have a better look at this proposal and not to go ahead with axing this service.

I also note that you have already spent a lot of rate payer money on the cycleways that I don't see many people using! Perhaps this money could have been better spent ensuring most parts of the city have access to adequate public transport!!
