Freshwater Management Support/Oppose

See page 6 of the Consultation Document.

Please select one of the following: I generally disagree with the activity proposed for Freshwater Management.

Freshwater Management Comments

Please provide any comments.

1. Ecan should strictly enforce clear breaches of the freshwater management plan e.g. when stock are found to be wading in and polluting the waterways because of inadequate fencing. Past examples seem to have been ignored.
2. Given that we are faced with possible compromise and consequent chlorination of our famously good-quality water, surely the likes of the Belfast water exporting business should be restricted to a reasonable amount and levied to assist with the financing of water management. Mining companies are forced to restore the land they disturb. Access to a natural water resource for commercial gain should be treated similarly.
