Freshwater Management Support/Oppose

See page 6 of the Consultation Document.

Please select one of the following:

I generally agree with the activity proposed for

Freshwater Management.

Freshwater Management Comments

Please provide any comments.

Please increase the Immediate Steps funding that the Water Zone Committees have access to as it is an efficient way of spending a smaller amount of money and enabling more volunteers and other input. Zone committees do a lot with the small amount they have and it would be good to support their work to enhance water quality and ecological values more.

Likewise, help the Kaikarki initiative. Establishing ecological corridors across the Cuntubery plans can help boost water quality and increases biodaversty.

Public Transport Options

Public Transport is one of the programmes in the Transport and Urban Development portfolio. For the first year of the Long-Term Plan 2018-28 we are proposing changes to the Public Transport programme as outlined in the **Consultation Document**.(on page 14)

To make comment on the Public Transport propsed changes please complete the selection panel below.

To make comment on the the whole Transport and Urban Development portfolio, please use the tab on the left.

Please review the options in the Consultation Document and indicate which option you support:

Option 4 – none of the above. (Please provide comment/ideas for an alternative solution)

Public Transport Comments

Please provide any comments.

The cutting of 6 bus routes in Christchurch is not in keeping with Ecan stamtamnt of *multi-modal transport system*.

ECan must retain the 6 routes proposed for cancellation and increase rates for the next 2 years to pay for it. ECan needs to lobby central government to cancel the Fare Box recovery requirement and to provide funding. Please develop and implement the new Regional Public Transport Plan to support robust PT in Canterbury until more permanent solutions are agreed upon.

Developing PT integrated with cycling can support both. Bikes can easily be the cost effective link at both ends of a bus journey. Secure bike parking at stops, providing space on buses for bicycles (more than two) offer synergies. This supports ECan's headline commitment to 'multi-modal' transport options.

Recommendation

Comments noted. Submitter suggest lobbying central government to change fareboxpolicy. This is beyond the scope of the LTP
