Public Transport Options

Public Transport is one of the programmes in the Transport and Urban Development portfolio. For the first year of the Long-Term Plan 2018-28 we are proposing changes to the Public Transport programme as outlined in the **Consultation Document**.(on page 14)

To make comment on the Public Transport proposed changes please complete the selection panel below.

To make comment on the the whole Transport and Urban Development portfolio, please use the tab on the left.

Please review the options in the Consultation Document and indicate which option you support: Option 4 – none of the above. (Please provide comment/ideas for an alternative solution)

Public Transport Comments

Please provide any comments.

I would support option 2 (no fare increases), but I disagree with completely discontinuing the six bus routes. I live on Route 145 and this route is frequently used by children our neighbourhood to get to Cashmere High School. I think it is sad to take the opportunity to get to school independently away from the children, and to increase reliance on cars as mean of transport for students. I was hoping my children would be able to take the 145 bus to school when they are old enough. Would there be an option to continue this route as school-times only route with 1-3 services in the morning and 1-3 in the afternoon? The same applies to other routes being used by students as transport to school. Do we really want increased car traffic around schools and bring up children who have never used a bus? Thank you for your consideration.
