**Subject:** LTP SUBMISSION - PUBLIC TRABSPORT

Hello,

I wish to make a submission on the LTP Public Transport, with particular reference to the 535 bus. This bus as you will know connects Lyttelton (where I live) with Ferrymead. The only other way from one to the other by public transport is to get a bus into the Bus Exchange from Lyttelton and then another one all the way back to Ferrymead. The return journey reverses this process, overall an extremely time consuming operation.

There are various places I visit regularly at Ferrymead including my dentist and the bank. Lyttelton has no bank and no dentist. It has a supermarket but although very good it is limited by its size. A trip from one place to the other becomes a major expedition even with the current hourly service. I am prepared to support your preferred option on public transport with the exception that I feel the 535 bus should definitely be retained and I should be pleased if you would consider further before stopping this service.
