Type your enquiry here *	Extend the 535 bus to include Governors Bay, and over Dyer's Pass: It is imperative for Christchurch to engender more use of public transport/cycling/walking for commuters, rather than be reliant on the car to work and back. The long-sighted view would be to invest the relatively little extra cost to extend this service, rather than prolong the 20th century ethos status quo of the private motor car. There are many Governors Bay/Allendale folk who would patronise such a service.
