Submission Type	Web
Version	0.1
Whole Plan Support/Oppose	
Please select one of the following:	I generally disagree with the activity proposed for the Long-Term Plan.

Whole Plan Comments

Please provide any comments.

I am horrified that you do not frame all sections and actions with climate change in mind. It should be up front in all plans and decisions.

I do not see any comments on the return to democracy.

I consider that you should be proposing that ALL action on transport be transferred to the CCC. It is a ridiculous situation that transport policy and actions are split between the two authorities.

Water - where is a strategy to protect our water supply in view of drought and intense rain events

Cows - what are you doing about dairy consents? We have too many cows in Canterbury and the toll they are taking on our land is unacceptable and unsustainable

Coastal erosion - any policies on this problem? I don't see any

Finally - what is ECAN doing to reduce its own carbon footprint? I am tired of you planning mitigation and not being a leader in prevention. Wouldn't it be better to be the leader at the top of the cliff rather than the ambulance at the bottom.

Grow a spine ECAN

Angela McPherson
