### Public Transport Options

Public Transport is one of the programmes in the Transport and Urban Development portfolio. For the first year of the Long-Term Plan 2018-28 we are proposing changes to the Public Transport programme as outlined in the **Consultation Document**.(on page 14)

To make comment on the Public Transport proposed changes please complete the selection panel below.

To make comment on the the whole Transport and Urban Development portfolio, please use the tab on the left.

**Please review the options in the Consultation Document and indicate which option you support:** Option 4 – none of the above. (Please provide comment/ideas for an alternative solution)

### Public Transport Comments

#### Please provide any comments.

I live in St Martins and have a child who goes to Cashmere High School. I have two more children who in the next few years also go to Cashmere High. Like many people in this suburb when the weather is wet and cold in winter the kids will take bus number 145 to school and back. I do not want to see this line discontinued. Options 1, 2 and 3 all related to discontinuing this line. I would prefer to pay a fare increase and still have this option of the children getting to school and back by themselves. We have to support the young people in the community and help families. If this route is stopped it will just put pressure on parents to drive the kids to school on wet days which will increase traffic issues, increase pollution and make many parents including myself stressed and ultimately late for work.
