The Long-Term Plan 2018-28 outlines the framework for the types of activities we will undertake from July 2018. It also details the measures that we have put against these activities, and the corresponding financial information, policies and strategies.

The work of Environment Canterbury is reported on under six portfolios as outlined in the draft Long-Term Plan document. Our website outlines many of the areas we work in, in more detail. On this form you are asked for feedback on the activity planned under each portfolio as well as on the entire plan and specifically on the Public Transport options. In the comments section under each portfolio, please tell us what you support/don't support about the planned activity, and if there is anything you would like to see more or less of.

Please view our short Consultation Document and full Long-Term Plan supplementary document on [www.ecan.govt.nz](http://www.ecan.govt.nz).

#### 1. Whole Plan

##### Support/Oppose

Please select one of the following: (please select one answer)

I generally agree with the activity proposed for the Long-Term Plan.

I generally disagree with the activity proposed for the Long-Term Plan.

Comments:

I cannot agree entirely because of transport concerns.

## 2. Public Transport Options

Public Transport is one of the programmes in the Transport and Urban Development portfolio. For the first year of the Long-Term Plan 2018-28 we are proposing changes to the Public Transport programme as outlined in the Consultation Document. (on page 14)

To make comment on the Public Transport proposed changes please complete the selection panel below.  
To make comment on the the whole Transport and Urban Development portfolio, please go to Q7.

### Options

Please review the options in the Consultation Document and indicate which option you support: (please select one answer)

**Option 1** – A combination of routes, fares and (targeted) rates changes: small fare and rates increases, reduced Total Mobility subsidy and six routes discontinued.

**Option 2** – As Option 1 but larger rates increase, no fare increase: larger (targeted) rates increase, no fare increase, reduced Total Mobility subsidy and six routes discontinued.

**Option 3** – As Option 1 but larger fare increase, smaller (targeted) rates increase: minimal rates increase, larger fare increase, reduced Total Mobility subsidy and six routes discontinued.

**Option 4** – none of the above. (Please provide comment/ideas for an alternative solution)

**Comments:** *It concerns me that a new route that hasn't had time to become established (150 through Prestons) could be axed. If there were more options it could be used more. eg. If I want to go to Palms for a 10am appointment I catch the 9.15 but cannot return until 1.40pm.*

## 3. Freshwater Management

See page 6 of the Consultation Document.

*(2) If fares were lower patronage would increase overall. If other places can have \$2. fares why can't Christchurch?*

### Support/Oppose
