The work of Environment Canterbury is reported on under six portfolios as outlined in the draft Long-Term Plan document. Our website outlines many of the areas we work in, in more detail. On this form you are asked for feedback on the activity planned under each portfolio as well as on the entire plan and specifically on the Public Transport options. In the comments section under each portfolio, please tell us what you support/don't support about the planned activity, and if there is anything you would like to see more or less of.

Please view our short Consultation Document and full Long-Term Plan supplementary document on www.ecan.govt.nz.

2. Public Transport Options

Public Transport is one of the programmes in the Transport and Urban Development portfolio. For the first year of the Long-Term Plan 2018-28 we are proposing changes to the Public Transport programme as outlined in the Consultation Document. (on page 14)

To make comment on the the whole Transport and Urban Development portfolio, please go to Q7.

Options

Please review the options in the Consultation Document and indicate which option you support: (please select one answer)

Option 1 – A combination of routes, fares and (targeted) rates changes: small fare and rates increases, reduced Total Mobility subsidy and six routes discontinued. ☐

Option 2 – As Option 1 but larger rates increase, no fare increase: larger (targeted) rates increase, no fare increase, reduced Total Mobility subsidy and six routes discontinued. ☐

Option 3 – As Option 1 but larger fare increase, smaller (targeted) rates increase: minimal rates increase, larger fare increase, reduced Total Mobility subsidy and six routes discontinued. ☐

Option 4 – none of the above. (Please provide comment/ideas for an alternative solution) ☒

Comments:

Rates + fares increases are to be expected. Reduced total mobility subsidy is hard to follow. Route (or routes) to Lady Isaac should not be cut. 107, 145, 108, 150, 535 do not mean

Please select one of the following: (please select one answer)

I generally agree with the activity proposed for Transport and Urban Development. ☐

I generally disagree with the activity proposed for Transport and Urban Development. ☐

Comments:

I could not see what activity is proposed. all generalised waffle! But I do wish to see rail connections to Rangiora, Darfield, Rolleston and ?? The tracks are there and rathig stock is probably languishing in a shed somewhere. This would get cars off the road. A free electric shuttle from stations to CBD would be efficient and green.

* Bring back the free electric shuttle (pre-made) from Moorhouse to the casino - round trip

DO NOT give away our water
to commercial bottling companies.

Support/Oppose

Please select one of the following: (please select one answer)

I generally agree with the principles outlined in the Revenue and Financing Policy. ☒

I generally disagree with principles outlined in the Revenue and Financing Policy. ☐

Comments:

4.5% rates increase for fixed income
rate payers will be tough - but probably
a necessary evil - if you ~~don't~~ didn't
produce such lavish consultation
documents - A4 size is easier to
handle.

I support the proposed total rates revenue increase of 4.5% for 2018/19. ☐

I do not support the proposed total rates revenue increase of 4.5% for 2018/19. ☒

Comments:

Any smaller amount would
be more acceptable.
