Freshwater Management Support/Oppose

See page 6 of the Consultation Document.

Please select one of the following: I generally disagree with the activity proposed for Freshwater Management.

Freshwater Management Comments

Please provide any comments.

Its not enough too slow too conservative, council should not be issuing consents without knowing the true quantity of water available the risks and the benefits to our local economy. Increase spending here for research on the water system and change policy's to better serve the people of Canterbury. The people of Canterbury believe ecan is corrupt and does not give a damn about them or the future of Canterbury's water.

The plan should also have in it:1 the removal of the two water consents in Belfast they are old and have no benefit to canterbury, the profits wont go back into the economy. This will restore credibility

2. Removal of all decision makers for water consents who served during national governments tenure, and bar them from working in public sector again. This will improve the relationship with Canterbury.
3. Encourage research in technology and sustainable practices for water eg: recycling, roof collection.

Biodiversity and Biosecurity Support/Oppose

See page 8 of the Consultation Document.

Please select one of the following:

I generally agree with the activity proposed for Biodiversity and Biosecurity.

Biodiversity and Biosecurity Comments

Please provide any comments.

Keep up the good work, would like to see more encouragement for farmers and lifestylers to make their properties more respectful of the natural Canterbury environment, plant more drought tolerant plants make yellow lawns cool and encourage low intensity farming around important biodiversity areas

Public Transport Options

Public Transport is one of the programmes in the Transport and Urban Development portfolio. For the first year of the Long-Term Plan 2018-28 we are proposing changes to the Public Transport programme as outlined in the **Consultation Document**. (on page 14)

To make comment on the Public Transport proposed changes please complete the selection panel below.

To make comment on the the whole Transport and Urban Development portfolio, please use the tab on the left.

Please review the options in the Consultation Document and indicate which option you support:

Option 1 – A combination of routes, fares and (targeted) rates changes: small fare and rates increases, reduced Total Mobility subsidy and six routes discontinued.

Public Transport Comments

Please provide any comments.

Do more research understand the needs of canterbury, look how the world moves people and embrace technology, go electric and abandon uneconomical routes

Rates Support/Oppose

See page 16 of the Consultation Document.

Please select one of the following:

I disagree with the proposed rates increase of 4.5% for 2018/19.

Rates Comments

Please provide any comments.

We can't afford it, freeze for 3 years. User pays big ticket items like sport stadiums and halls, I'll pay a toll to use a swimming pool or watch the rugby
