Public Transport Comments

Please provide any comments.

I am a shelterer at two libraries in the Christchurch City Libraries network and I rely on public transport to get to work everyday. I use the 145 bus at least 8 times a week and 535 bus at least 5 times a week. Discontinuing these vital services would severely negatively impact my life as these bus services are a lifeline for me and many others. Perhaps these services could be ran using only the Mercedes vans? My sister is in the same situation as me and she uses these buses as much as I do and agrees these services are absolutely vital to many in our community. I would really like people who are making these decisions to think about the people who are counting on these services before discontinuing them.
