Public Transport Options

Public Transport is one of the programmes in the Transport and Urban Development portfolio. For the first year of the Long-Term Plan 2018-28 we are proposing changes to the Public Transport programme as outlined in the **Consultation Document**.(on page 14)

To make comment on the Public Transport proposed changes please complete the selection panel below.

To make comment on the the whole Transport and Urban Development portfolio, please use the tab on the left.

Please review the options in the Consultation Document and indicate which option you support: Option 4 – none of the above. (Please provide comment/ideas for an alternative solution)

Public Transport Comments

Please provide any comments.

I would like considered the option of making the buses either much much cheaper (for example \$1) or free for the medium term (5 to 10 years??). I believe this would change the habits of the residents of Christchurch, and encourage widespread public transport usage, which could then be charged for at a subsidised rate in the future once established.

I also disagree with the removal of the six routes. Some residents absolutely rely on these services and have no affordable alternative. In particular, I would hate to see the removal of the 145, which provides a means for many children in the St Martins area get to their local high school (Cashmere).

Thanks for your time.
