Subject: The proposal to cut the 145 bus route

Hello my name is Cora Scott and I am a year nine student at Cashmere Highschool. I am emailing about the proposal to cut the 145 bus route. I regularly use this bus to get to school and back and it would be extremely annoying to have to take the Orbiter. Taking the Orbiter would be extremely inconvenient for me and I would probably end up having to take the car, something that I do NOT want to do. As well as that whenever I have been on the on that bus it has always been packed with students going to and from school - multiple people always end up standing. Even if you can't run the 145 during the rest of the day I don't see why you can't just run it on the two trips where students use it.

Your Sincerely

Cora Scott
