My submission is re the proposed loss of the westmorland - eastgate bus route.

I oppose this. I live in westmorland and I believe the reason the bus service hasn't been used enough is the route.

I strongly believe the westmorland bus should go via the local schools that we are zoned for - Cashmere High, Thornington and South Intermediate, then down Colombo Street and into the cbd.

If it went to the city it would be used so much more. How many Westmorland residents want to go to eastgate? Why would they?? Now that the cbd is up and running again with a lot more people working in town it makes so much sense. I personally would not bother busing to town at the moment as I would have to catch two buses, or drive to pmh, park and catch that bus.

I would consider moving away if we no longer had a local bus especially as my daughter gets older as she will go to south and cashere high eventually. For a lot of older residents that rely on the bus service it would make life very difficult if they didn't have the bus as an option.
