Long-Term Plan 2018-28

Comments on any other policies or strategies in the Full Draft Long-Term Plan.

Comments.

I wish to endorse the plan for Radley Park and the dredging of the Heathcote River up to Radley Street and the removal of the pest cottonwood trees. The river bank that is to be cleared of the current vegetation to allow for dredging and replanting has been sadly neglected. I have read that people like the 'poplar' trees there. They are usually in fact cottonwood trees.

My home backs onto the reserve along the river on the Ferry Rd side. I have had cottonwood infestation into my property for years. The seeds grow in every crack, garden bed and gutter. When of any decent height they are very tough and difficult to remove. I am forced to remove the dense infestation right throughout the year as suckers will regrow when cut off. Please accept my full endorsement of the plan in this area.

Many thanks

Shona Pierce
