Subject: LTP submission

Submission for the continuation of route 535, Rapaki to Eastgate.

I am a regular user of this bus between Rapaki and Lyttelton, Ferrymead and Woolston.

I prefer to use the bus as a means of transport because I am passionate about keeping my carbon footprint as low as possible.

A consequence of being a frequent bus user is that I am becoming less confident as a driver, so the loss of the bus will have an impact on my mobility.
