In the comments section under each portfolio, please tell us what you support/don't support about the planned activity, and if there is anything you would like to see more or less of.

Options

Please review the options in the Consultation Document and indicate which option you support: (please select one answer)

Option 1 - A combination of routes, fares and (targeted) rates changes: small fare and rates increases, reduced Total Mobility subsidy and six routes discontinued.

Option 2 - As Option 1 but larger rates increase, no fare increase: larger (targeted) rates increase, no fare increase, reduced Total Mobility subsidy and six routes discontinued.

Option 3 - As Option 1 but larger fare increase, smaller (targeted) rates increase: minimal rates increase, larger fare increase, reduced Total Mobility subsidy and six routes discontinued.

Option 4 - none of the above. (Please provide comment/ideas for an alternative solution)

Comments: Shame on ECRC - how do we live in a new & accessible city when 6 bus routes are to be stopped. This will exclude vulnerable people + isolate individuals if they can not use existing transport. This will have a huge impact on our adult daughter who has a disability + she needs safe & reliable public transport to access community services.

① work at providing smaller buses ② maybe offer less bus timetable options on off peak times ③ slight increase in bus fares on these routes. ④ offer bus service for bottom of Westmorland + W. better than no bus service.
