Dear Councillors

RE: Submission on Environment Canterbury's Long Term Plan 2018-2028

Thank you for the opportunity to submit on your Long Term Plan 2018-2018. It is an important document and we acknowledge the significant amount of work that has gone into preparing it.

Our submission points below are presented under the portfolio and work programme headings included in the Long Term Plan.

General Comments

There is no mention in the Long Term Plan of the Whaka-Ora Healthy Harbour Plan. Environment Canterbury is a signatory to this Plan along with the Christchurch City Council, Te Hapū o Ngāti Wheke, Te Rūnanga o Ngāi Tahu and Lyttelton Port Company. Environment Canterbury has committed to working with its partner organisations and the Whakaraupō / Lyttelton Harbour community to implement the Plan.

We request that Environment Canterbury signal this commitment through including the Whaka-Ora Healthy Harbour Plan in its Long Term Plan.

Hazards, Risk and Resilience

We support Environment Canterbury's proposed Climate Change Integration work programme. Sharing climate change data and knowledge will help inform constructive dialogue on managing climate change risks.

Transport and Urban Development

We support the new initiatives that have been agreed by the Regional Transport Committee, in particular Measure 2.1.3 which seeks to understand the opportunities for, and barriers to, mode optimisation. We have considerable knowledge in this area and would like to contribute to this work.

Regional Leadership

We support the proposed review of systems for stakeholder relationships and the development of regularly reviewed stakeholder relationship plans. A strong relationship with Environment Canterbury is important to us and this initiative could help ensure that our relationship continues to grow.

On this topic, we ask that you consider appointing a "relationship account manager" to work with us. We deal with Environment Canterbury staff in a range of regulatory and non-regulatory roles and across a range of topic areas. There are benefits in having a primary contact person who understands our business and the breadth of our dealings with Environment Canterbury. Such a person could also ensure that there is early engagement and sharing of knowledge on key initiatives.

Thank you for considering our submission. We do not wish to meet with Councillors to discuss our submission, but please contact us if there are any points that you would like clarified.

Yours sincerely

A handwritten signature in black ink, appearing to read 'K. Kelleher', with a long horizontal flourish extending to the right.

KIM KELLEHER
Environmental Manager
