**Option 1** - A combination of routes, fares and (targeted) rates changes: small fare and rates increases, reduced Total Mobility subsidy and six routes discontinued.

### Comments:

Elderly and school children are the most being affected by your unfair proposal. How about combining routes 107 & 108 and fewer runs. Just run at peak times. Our children complain that the 108 bus in the morning and

Please select one of the following: (please select one answer)

I generally agree with the activity proposed for Freshwater Management.

I generally disagree with the activity proposed for Freshwater Management.

### Comments:

afternoon is really packed especially in the winter. Stax Mill residents especially would have way too far to walk in the rain to get another bus. There are a lot of elderly in residence there. Running a minibus in the school run is silly too. I see big buses around our area at non peak times that are empty. I do realise that is uneconomical too. Please do some more study (survey) with times and amounts of people.

### Comments:

We really used this service as its packed on the blue line for our children in the morning and they have to wait in bad weather and walk in it also. (further than for 108 bus)

I do not support the proposed total rates revenue increase of 4.5% for 2018/19.

We are already paying huge rates. They have gone up sharply after the earthquakes. It's a struggle to pay them sometimes now.
