KEEP BUS ROUTE 107 – and all current routes

I oppose closing any bus routes!! We are a growing city and why would you trim any, as this is a backward move. Apart from the local residents , there are Willow Bank staff and visitors who use the bus. There is a new development underway in Highsted who are potential new customers. Much money is being spent on cycleways, so I only see it right that for those who use the buses they should continue to have the option to do so. Maybe if the services could be faster they would be used more (it takes me just over the hour to get from Gardiners Road to Addington). Often in business there are areas that subsidise other parts but make the operation complete – and these threatened routes are just that. There is an element of community service here too.
