## Transport Options

Public Transport is one of the programmes in the Transport and Urban Development portfolio. For the first year of the Long-Term Plan 2018-28 we are proposing changes to the Public Transport programme as outlined in the Consultation Document. (page 14)

To make comment on the Public Transport proposed changes please complete the selection panel below.  
To make comment on the the whole Transport and Urban Development portfolio, please go to Q7.

### Options

Please review the options in the Consultation Document and indicate which option you support: (please select one answer)

**Option 1** - A combination of routes, fares and (targeted) rates changes: small fare and rates increases, reduced Total Mobility subsidy and six routes discontinued.

**Option 2** - As Option 1 but larger rates increase, no fare increase: larger (targeted) rates increase, no fare increase, reduced Total Mobility subsidy and six routes discontinued.

**Option 3** - As Option 1 but larger fare increase, smaller (targeted) rates increase: minimal rates increase, larger fare increase, reduced Total Mobility subsidy and six routes discontinued.

**Option 4** - none of the above. (Please provide comment/ideas for an alternative solution)

**Comments:** do not discontinue route 535 from Ly Helton to Rapaki. It is the only means of transport for some people. Maybe continue from Rapaki to Governors Bay for more passengers. Also extend to city as previously, not Lihwood.

### Comments:

Concerning route 535. It is important for Carr Bay + Repulse to keep this. Extending to Governor's Bay would possibly be useful for more people. Public transport needs to be widely available not just for economic routes.
