Status	Submitted
Submission Type	Web
Version	0.1
Whole Plan Support/Oppose	
Please select one of the following:	I generally disagree with the activity proposed for the Long-Term Plan.

Whole Plan Comments

Please provide any comments.

I can not see any reference to quarrying, the proposed quarry in Templeton is about to be situated right by a quiet community. As Ecan seem unable to manage the problems arising from the quarries already operating in Yalrust and West Melton I have no confidence in your abilities to be able to sick the the RMC for this quarry. There should be a minimum set back from residential homes of at least 2kms to avoid dust contamination. There is also the problem of quarries affecting water. We have major water problems at our house with our water being contaminated with Ecoli and Blasto. I have a Blastocycsitis infection which I have been infected from our well water and I'm unable to get rib off. Now we will have to contend with the water being full of git and drying up.Ecan appear to do nothing to solve any of these problems - its all lip service.
