### Freshwater Management Comments

#### Please provide any comments.

Please listen & actively involve the people on the CWMS.

They care about the water in their locality, have appropriate backgrounds to provide correct information.

In Canterbury 3/4 of our native fish & 1/4 of our aquatic invertebrates are threatened or at risk. We have approximately 30 fresh water native fish that depend on clean flowing water for their survival. Whitebait & eels need to use our streams. rivers & waterways. They need access to the ocean to complete their life cycles.
