Subject: LTP SUBMISSION 107 Styx Mill & 108 Casebrook

Dear Sirs,

We would like to make a submission against the discontinuing of the bus services 107 and 108.

We use the 107 bus service from Northwood to get to school and home most days to Cobham School and Burnside High School.

We understand that the 107 is not a service that is very often full of passengers.

At a push we could use the 108 bus service, and at times we do so to get home if we miss the 107 connection from our schools.

To discontinue both bus routes would leave us with no bus route anywhere near us to go to or from school.

It was our understanding that we should be within 200 metres of a bus stop in Christchurch?

The removal of these services would leave us a long way from any bus route.

We note that small buses have been on our route in recent times.

Would it be possible to have a reduced service in the mornings for school and the afternoons from school and not have all the

Mid-morning and early afternoon services that appear to be not used by people?

We would like E-Can to review the removal of both these bus routes from our area.

Regards
