Public Transport Options

Public Transport is one of the programmes in the Transport and Urban Development portfolio. For the first year of the Long-Term Plan 2018-28 we are proposing changes to the Public Transport programme as outlined in the **Consultation Document**.(on page 14)

To make comment on the Public Transport proposed changes please complete the selection panel below.

To make comment on the the whole Transport and Urban Development portfolio, please use the tab on the left.

Please review the options in the Consultation Document and indicate which option you support: Option 4 – none of the above. (Please provide comment/ideas for an alternative solution)

Public Transport Comments

Please provide any comments.

As our authority that is meant to be protecting our environment I am absolutely non-plussed to find that you are trying to do away with more bus services. You should be encouraging more people to get out of their cars and make use of the limited public transport that is currently available in Christchurch. If you end up canceling the 107 and 108 bus services more cars will end up clogging up our roads in order for parents to safely get their children to & from school let alone all the other outside curricular events that parents need to get them to these days. It is not a case of sending them on their way by pushbike as most parents feel that the roads are not safe for cyclists during rush hour times. Please save the Christchurch environment and keep these buses running using the most adequately sized bus for the time of day / population that uses them.
