Public Transport Options

Public Transport is one of the programmes in the Transport and Urban Development portfolio. For the first year of the Long-Term Plan 2018-28 we are proposing changes to the Public Transport programme as outlined in the **Consultation Document**.(on page 14)

To make comment on the Public Transport proposed changes please complete the selection panel below.

To make comment on the the whole Transport and Urban Development portfolio, please use the tab on the left.

Please review the options in the Consultation Document and indicate which option you support: Option 4 – none of the above. (Please provide comment/ideas for an alternative solution)

Public Transport Comments

Please provide any comments.

I view the proposed cessation to the Westmorland bus service as completely unacceptable.

The current service takes us to Eastgate, not a place we need or want to visit.

We have a large subdivision still in its early stages of development in Westmorland further up Penruddock.

Many of these future residents will have school age family so a bus service is essential to transport these citizens to their education source.

There is a large number of residents like ourselves, my wife and I, retirees who would use the bus system more if it went to a more sensible destination.

Please consider extending the existing Westmorland route to also include the upper regions of our community to the bus terminal central city via local schools where possible and Barrington.

Then continue the service to Eastgate from the city central terminal.
