Subject: Submission on the Canterbury Regional Council's long-term plan 2018 - 2028

Note: I do NOT want my name made public.

1. Bus routes - I prefer Option #3
2. Revenue and Financing Policy - I endorse the initiative for ratepayers to borrow funds to have heating/insulation upgrades etc; a great idea, as long as the accumulated debt doesn't cause any financial problems and additional expense to the CCC
3. General comment - I'd prefer the CCC to stick to its core business i.e. roads, infrastructure etc, and not put \$ into areas that are to the side of that i.e. social housing etc; a focus on New Brighton to enhance the area, sort out the landowners/business owners who aren't doing anything with their properties etc is much needed - it's all long overdue
4. I don't want to pay anything for the rebuild of the Cathedral in the square - I oppose that fee being put into the rates for every ratepayer to pay. If individual rate payers are keen to pay a contribution, let them do so voluntarily.

Thank you; best wishes,
