Apart from the public transport spend which should be zero. There are far more important issues and public transport users should pay for their own transport just like everyone else.

Public Transport Comments

Please provide any comments.

Ideally you would stop this \$70 million dollar spend altogether. This is a total waste of my money for a service I have never used and am never likely to use. The public transport spend is not where you should be focusing money - instead you should be sorting out environmental issues and safety. Public transport users can fully fund the services they want, just as we fully fund our own transport costs in/on other vehicles.
