PE20122796	5/09/2012	31/08/2012	8:00	Event not Substantiated			Sediment	De-watering from the quarry pit is happening at a rate exceeding that authorised by the consent	1			
PE20140661	18/02/2014	18/02/2014	8:00	Event not Substantiated			Earthworks/land use consents	Christchurch Ready Mix at their Amberley Beach road site are about to cart up to 20000 m3 of material from the Waipara River bed over the coming months on to there site under the resource consent. In the application for this consent there is a site plan as to where this material is to be stock piled on their site. The site plan has a limit of how close to there East boundary being they need to be 50 meters from the Significant Natural Area that is in the HDC district plan. There is material from the Waipara stock piled only 10 meters from the SNA . This material has a heavy loading of weed seed that has grown and seeded that is only found in the Waipara River bed and this has now spread into the SNA. There was never previously these weeds in the SNA. I would like for the condition in there resource consent to be enforced and or they need to get a variation to allow them to stock pile closer to the SNA but clearly the problems that this cause need to be addressed. I would also like to have the resource consent for dewatering CRC .looked at that allows the water to be delivered in to a trench with in 100 meters of when the water is being pumped from. The trench is 700 meters long, I do not believe this lawful. The HDC do not allow with there land use consent for any work to do with quarrying including no passenger vehicles to happen with in twenty meters of the SNA that is on the East boundary but the trench has been formed 0 meters from the edge of the SNA which I believe to be unlawful as well.	1			
PE165387	25/01/2016	22/01/2016	5:00	Event not Substantiated	Noted	FJ: - Please refer to PE165378	Earthworks/land use consents	Caller phoned on Friday about the hours of operation for a quarry. I've been searching and can only find three consents marked in the area on GIS with hours of operation, but I don't think these are related due the location of the quarry (ref complaint grid reference), but can you please check? CRC143929, CRC143936 and CRC143938. Caller's main issue is being woken at 5:00 every morning by Readymix trucks driving down Diversion Road from the quarry. I talked to the caller about how the local council regulates noise and vibration etc, but that our consents do sometimes have hours of operation as a condition. They've had the local council out who directed them our way in reference to a resource consent. I wonder whether caller needs to be directed back to local council.	1			
PE174118	8/03/2017	8/03/2017	8:00	Event not Substantiated	Referred Int/Ext	Complaint relating to operations outside Ecan jurisdiction	Earthworks/land use consents	3:01pm 08/03/17 - Called to advise that the Christchurch Ready-Mix Concrete Limited Quarry at Diversion Road (Within the Waimakariri River bed) has been working day and night constantly and has been doing this for some time. Caller was concerned that this is breaching the consent conditions as they had been previously advised that quarry consents sometimes have restricted operating hours. ***Potentially CRC152559 - see condition 24 Works shall:a. only occur between the hours of 06:00am and 07:00pm inclusive, Monday to Friday; b. only occur between the hours of 07:00am and 12:00pm inclusive on Saturdays; and c. not be carried out on Sundays or public holidays.***	1	9/03/2017	Pollution - Phone/Email	Called Readymix
PE182741	28/09/2017	28/09/2017	14:42	Event not Substantiated	Unable to Attend	Noted for the record	Dust	28/09/17 02:42pm - [Dust from Christchurch Ready-Mix Concrete Limited, Hornby] - Caller advised that Ready-Mix at 126 Branstown Street, Hornby has not been putting sprinklers on to suppress the dust. This has been an ongoing issue, and at time of complaint, the dust is so thick they cannot see through it. The wind is a gusty NE. Caller is sending in photo regarding this.	1	24/10/2017	Note	not able to attend
PE172224	20/09/2016	20/09/2016	11:00	Event not Substantiated	Noted	Not able to verify	Rubbish/waste/offal	11:38am 20/09/16 - Customer called to advise that there is concrete being dumped at the Kettlewell quarry along the West Coast Road. Caller has concern that they do not have consent for this. Caller is happy to speak with ECan for further details, and requested a call to find out if it is consented or not.	1	22/09/2016	Phone Call	Result of inspection

PE172671	1/11/2016	1/11/2016	8:00	Event not Substantiated	Provided Education	Mitigation measures in place with further time investment needed	Dust	01/11/2016 - 02:27pm - [Dust from Ready Mix quarry, 53 Kettlewell Drive, Templeton] - Caller reporting dust from the Ready-Mix shingle quarry at 53 Kettlewell Drive. They are meant to keep the road clean. Foul, sick of it. When trucks turn in, dust and shingle spilling out of trucks. Same with Fulton Hogan further down the road but Ready-Mix worse, billows of dust. Tar sealed, narrow road, not designed for trucks. Workers living in houses nearby so they don't complain. Issue everyday. Today an issue for most of day. Easterly wind.	1	3/11/2016	Pollution - Site Visit	Site inspection
PE173541	24/01/2017	24/01/2017	18:43	Event not Substantiated	Provided Education	Ready Mix to increase dust suppression activities.	Dust	24/01/17 6.43pm - scale 5 Dust coming out of Readymix quarries. Kettlewell Drive Unable to see when driving, very dusty. Trucks making it worse.	1	25/01/2017	Phone Call	Call to Ready Mix
