| PE163881 | 23/11/2015 | 20/11/2015 | 11:02 | Event not Substantiated | Noted | Data not available | Earthworks/land use consents | 20/11/15 - 11:02am - Caller rang to advise that the works in the Road Metals Quarry on Wards road is starting prior to 7am. Trucks are said to be coming and going since about 5.30am. I have advised the customer to contact the District Council about this as well. | 1 | | | |
| PE20123482 | 2/11/2012 | 2/11/2012 | 8:00 | Event not Substantiated | | | Dust | Caller rang to complain about the dust coming from the road metals quarry on State Highway 73. Caller drove past at 2.00pm amd 2.08pm and said you could hardly see through the dust, described as unbelivealbe dust, and windy. Needs to be watered. Can be seen directly outside the quarry office, 200M east towards town of the entry point. | 1 | | | |
| PE20144926 | 26/11/2014 | 26/11/2014 | 14:05 | Event not Substantiated | | | Dust | 14:05. Caller rang to report a dust issue at the Road Metals quarry in Rolleston. He said the dust is coming out of the Kerrs Road boundary. There is a steady North West there today but he would not classify it as heavy or a gale. | 1 | | | |
| PE20152291 | 15/05/2015 | 15/05/2015 | 13:40 | Event not Substantiated | Noted | Ongoing monitoring with resource consent conditions | Earthworks/land use consents | Hi. Caller phoned at 13:40 about the Yaldhurst Road Metals Quarry site where excavating has been occurring for the last two weeks. This morning at 10:00 (before the rain today) they saw water filling the base of the pit. They believe the quarrying depth has extended into the water table. I know there were applications for deeper quarrying, but has anything been granted yet I'm not sure? And it was only to allow closer proximity rather than extension into the water table anyway. | 1 | | | |
| PE163213 | 29/10/2015 | 27/10/2015 | 14:20 | Event not Substantiated | Noted | Noted | Dust | 27/10/15 I received a called on Tuesday 27 October from a property owner on Kerr's Road, in Burnham, Selwyn District. They wanted to check if it's appropriate to spread used diesel oil over a dirt road in order to mitigate dust created by heavy trucks traveling on the road. The caller was given this advise by Selwyn District Council but wasn't sure it was the right thing to do for the environment. Rule 5.18 of the LWRP covers the discharge of a dust suppressant onto land, but I am unsure if used diesel would be an approved dust suppressed under the HZNO act. There is a length of Kerr's road which is unsealed and property is right by the section of road where it changes from tarsal to dirt. Many heavy trucks, particularly trucks coming and going from the Road Metals Quarry at the end of Kerr's Road, hit this section of the road at great speed creating significant dust clouds. The property owner hasn't called us before about the dust, instead she has been trying to reach a solution with Selwyn District Council's Roading Engineers. They haven't be able to offer any help which she does appreciate but she was disappointed to have been advised by them to deal with it herself by spreading diesel on the road. The caller was also surprised to be told that ECan will turn a blind eye to this so to just go ahead and do it. The property owner would simply like the dust issue to be recorded on our system as a complaint against Road Metals (although it's really a number of company's trucks accessing aggregate form the quarry run by Road Metals) also for us to be aware (no action required in relation to this) the advise SDC gave her in relation to using diesel as a dust suppressant. As a follow up to this query I will provide the property owner with a copy of the relevant LWRP rule 5.18. No follow up required from compliance at this stage. | 1 | | | |
| PE174386 | 2/04/2017 | 2/04/2017 | 13:15 | Event not Substantiated | Noted | Informed Road Metals. | Dust | 2/04/2017. 13:12. 4/6 - Road Metals Quarry - opposite our home on West Coast Road Quarry dust blowing in the wind across the road and towards our home... recurrent issue. For years this has been happening. It has recently been reported in the newspapers. | 1 | | | |
| PE174577 | 26/04/2017 | 26/04/2017 | 12:30 | Event Substantiated | No Environmental Impact | Minor impact, fire extinguished | Dust | 26/4/2017 01:33pm - [Dust from Road Metals Quarry, West Coast Road] - Dust from Road Metals Quarry. Caller advised there is dust coming from the quarry since 12.30p.m. there is some wind, but not a lot. **2nd COMPLAINT** - 26/4/2017 02:37pm - Dust from Road Metals Quarry was entering Caller's property between 12pm - 1pm today and they couldn't open their windows. Small amount of wind. | 2 | 26/04/2017 | Pollution - Phone/Email | Email to CCC |
| PE183190 | 4/11/2017 | 4/11/2017 | 8:00 | Event not Substantiated | Unable to Attend | KK: 5/11/17 unable to attend, did not follow instructions to phone managers as 7om on a | Dust | 4/11/17 7:00pm Address Where this is happening: Road Metals Quarry - directly opposite us. Message: Lots of dust - in my house - recurrent issue - for the last 20 minutes today. | 1 | | | |
| PE184291 | 1/02/2018 | 1/02/2018 | 14:00 | Event not Substantiated | No Environmental Impact | This was only an advisory with no claim of a discharge, therefore no investigative action undertaken. ECan to respond to customer. | Dust | 1/2/2018 Email received: Regarding Old West Coast Road. We have the predicted strong winds for today. According to Mote monitoring wind is over 10.8 m/s. We back onto Road Metals Quarry. Just been down the back and there is not water cart dampening down. I would like a reply to this. I also would like to know if Winstones and Winstones Extension are using dust carts today. **2nd Email** 2/2/2018 11.20a.m. Email received 1/02/2018 8:13 p.m.: Put a complaint in earlier as strong winds (as predicted) and no water cart at Road Metals on Main West Coast Road. None either at Fulton Hogan. Still no water cart at either this evening and strong winds again. | 2 | | | |

| PE184935 | 3/04/2018 | 31/03/2018 | 14:49 | Event not Substantiated | Unable to Attend | After hours | Dust | <p>31/3/18 2:14pm Message: Dust going around everywhere from the quarrys. Disgusting. Address Where this is happening: McLeans Island Road, Conservators Road, Guys Road,</p> <p>**2nd report** 31/3/18 2:43pm Message: No water cart there which has caused a lot of dust to fly around during the wind storm we have just had. Address Where this is happening: Road Metals Quarry, Main West Coast Road, Yaldhurst Dust from quarries on Guys Road</p> <p>**3rd Report** Email 31/03/18 2:17pm: dust blowing everywhere from sols, kbs, fulton hogan, isaacs located on guys rd and conservators and mcleans island rd. I'll probably end up with a cough from all the dust blowing our way!!!</p> <p>**4h Report** Email 31/03/18 2:49pm: Hi I would like to complain about the lack of dust suppression at Road Metals Quarry on Main West Coast Road. A very strong Southerly wind has just come through (over 12 m/s) and I went to the back of our property (Old West Coast Road) to see if there was a water cart in operation to dampen down the Quarry. No water cart there at all. Could I please have a reply to this.</p> | 4 | 22/05/2018 | Note | no site visit |
| PE185391 | 14/05/2018 | 14/05/2018 | 16:40 | Event not Substantiated | Unable to Attend | I could not substantiate the event as received notification the following day. Discussed the situation with complainant. | Dust | <p>14/05/2018 04:43pm - [Dust on West Coast Road] - Snap Send Solve received - There is a huge dust storm on West Coast Road outside Prison, and Road Metals. Huge amount of visible dust. Noticed on West Coast Road at 04:40pm.</p> | 1 | 15/05/2018 | Pollution - Phone/Email | Rang Road Metals |
