Kia ora,

I am writing to ECAN to object the undemocratic addition of a second councillor to the South Canterbury ward.

I object, because a second councillor for South Canterbury will mean a 20% under-representation of Christchurch residents compared to the current 2% under-representation of wider Canterbury residents. The current proposal would result in a highly un-proportional representation per resident and therefore also be highly undemocratic. I therefore urge Ecan to return to the original proposal, with one Councillor representing South Canterbury.

Kind regards,

Connie Christensen
