Subject: Representation Review Appeals and Objections
Date: Friday, 28 September 2018 4:05:30 PM

I would like to object to the proposed Ecan representation. The principle of 1 person 1 vote is central to democracy, and having disproportionately high representation from rural districts produces inequity. The land and resources are for all Cantabrians to share and to care for. Urban dwellers should be equally able to have a say in the use of and stewardship of our environment, in particular our water resources.

Please give us back full democracy and fair representation .

Thank you

Prue Stringer
