Subject: Representation Review Objection
Date: Friday, 28 September 2018 8:11:41 AM

- I object to the proposal for Representation for the 2019 elections.
- It is an unbalanced and anti-democratic proposal that greatly over represents rural voters and under represents urban voters.
- The power of a vote in Central Christchurch is 40% less than a vote in South Canterbury.
-
- The people of New Zealand have clearly signalled that dirty rivers and unsafe drinking water will no longer be tolerated. I support the return to full democracy that has been denied to residents of Canterbury for eight years. It is a critical step towards solving the regions freshwater crisis.

Regards,
Mary
