Subject: 2019 Election Representation
Date: Thursday, 27 September 2018 2:24:54 PM

Please be advised the Ecan does not have my support for their proposal for Representation in the 2019 Elections... I contribute a proportion of my rates to fund ECans activities and many of your actions are questionable, eg faulty science with Particulate measuring (Air) and mismanagement of water... I suggest ECan takes notice of the people who keep the organisation running.

Ray Mainprize. Belfast.
