Subject: Equal ECAN voting rights
Date: Thursday, 27 September 2018 12:09:57 PM

I vigorously object to the current election-process plan which would see Christchurch City votes for ECAN councillors count for much less than a vote from South Canterbury - by as much as 40%.

ECAN must be restored to full equal vote democracy.

ECAN's reputation as a representative body has been long besmirched by its affiliation with, and perceived control by, commercial interests - at the expense of river health.

A return to one person, one equal vote, is the only course to reestablish ECAN's credibility with a deeply disillusioned public.
