Kia ora

I am outraged that having trodden on our democracy once by not allowing us to elect our own members of ECAN you now think you can dictate to us that some of our votes e.g. rural votes, will be worth more than city votes.

This is totally unacceptable and if this goes ahead you will have a big fight on your hands from the people of Christchurch.

Pull your head in now - this is not democracy and harks back centuries to where the landed gentry who were the only ones who got to vote.
