Subject: Over representation of ratepayers in South Canterbury .
Date: Thursday, 27 September 2018 7:32:35 AM

To whom it may concern ,

I wish to register my objection for the proposal to have two representatives in the South Canterbury district .

Such unfair representation leads to mistrust and disenfranchisement of some ratepayers for the selfish benefit of others .

If this is approved , I will be supporting an appeal through the courts to remedy this unacceptable .

Votes from South Canterbury should be of the same value as those from urban areas .

And yes we do obviously have email and telephones , some of them mobile , to contact the one representative required . Size of our geography is no impediment to fair representation .

Yours sincerely

Bryan Clearwater
